PROFESSIONAL SUMMARY

B.Tech CSE (AI & ML) student and MERN Stack Developer skilled in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in integrating generative AI APIs to develop intelligent applications with authentication, REST APIs, responsive user interfaces, and third-party services.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML, CSS

Frontend: React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MongoDB Atlas

AI / APIs: OpenRouter, Google Gemini API, Axios

Authentication & Payments: Firebase Authentication, Razorpay

Tools: Git, GitHub, VS Code, Thunder Client, Excel

Deployment: Render

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

PROBLEM SOLVING

Actively solving Data Structures & Algorithms problems on LeetCode using Python3, focused on strengthening core problem-solving and coding-interview readiness.

PROJECTS

AI Interview Agent | MERN Stack & AI Integration

React.js, Node.js, Express.js, MongoDB, OpenRouter, Firebase, JWT

- Built an AI-powered interview platform featuring resume analysis, personalized interview questions, automated feedback, and performance scoring.
- Designed a credit-based monetization system with secure order creation, payment verification, and credit allocation logic, following a Razorpay-style payment gateway architecture.
- Integrated Firebase Google Authentication, PDF resume uploads, and Redux Toolkit for authentication and state management across the application.
- Developed a responsive web application using React.js and Tailwind CSS with a full-stack MERN architecture.

AI-Powered Code Reviewer | MERN Stack & Generative AI

React.js, Node.js, Express.js, MongoDB, Google Gemini API

- Developed an AI-powered code review platform that analyzes source code and generates automated feedback using the Google Gemini API.
- Built REST APIs using Node.js and Express.js and integrated Axios, CORS, and environment variables for client-server communication and configuration.
- Implemented PrismJS and React Markdown to provide syntax-highlighted code input and formatted AI-generated responses.

Gym Website | Full-Stack Web Application

React.js, Node.js, Express.js, Nodemailer, Axios

- Built a responsive full-stack gym website featuring BMI calculator, pricing, workout, gallery, and contact features.
- Developed REST APIs using Express.js and integrated Axios for client-server communication.
- Integrated Nodemailer to enable email-based contact form submissions.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science and Engineering (AI & ML)

Allenhouse Institute of Technology | Expected 2027

CERTIFICATIONS & TRAINING

- Salesforce.com Cloud Computing Development Training — Astrea IT Services Pvt Ltd | June 2026 – July 2026
- MERN Stack Development Training — Allenhouse Institute of Technology | 2026
- Data Structures & Algorithms Training — Allenhouse Institute of Technology | 2024
- Code Fuse — Coding Competition, Certificate of Participation — Allenhouse Institute of Technology | Oct 2023
